

Display carts

Endless possibilities

WHY CHOOSE US?

Nowadays, selling place is as important as selling product. Innovative design, or unusual furniture will definitely attract customer's attention generating higher sale.

At the same time, we are constantly looking for ways to present our products to new customers by placing various stands on streets, in parks, or shopping malls.

Display cart is a great solution for selling products to look good and, at the same time, to attract attention.

In front of a shop, or a florist's, in a shopping mall, at a duty-free zone - display carts are perfect for standing there.

It is an illustrative drawing.

Description

Display carts are similar to gastronomic bikes which we have in our offer. They are designed in a way to maintain proven proportions and dimensions that allow you to work efficiently. Display cart is made of steel profiles, and may be painted any RAL colour. A roof is made of waterproof Cordura fabric on which we can easily print your logo, or any other graphic. According to customer's needs, a top may be made of steel, wood, or stone.

Display cart is perfect for selling flowers, souvenirs, perfumes, or sweets in places such as an airport, a shopping mall etc. Also it may be placed in front of a shop to attract customer's attention.
