

Corrugated sheet food carts

Endless possibilities

WHY CHOOSE US?

Mobile gastronomy is a trend which becomes more and more popular. From a mobile sales points we may sell increasingly interesting products.

Street food is not only an interesting adventure for young people but also an attractive alternative for people running gastronomic business.

A mobile cart may be an entirely new concept as well as a mobile supplement of your already existing restaurant.

Due to our proposition, you can easily match a cart to your product as well as maximise you're your profits in a small space.

High product quality together with visual and technical details as well as possibility of modification cabinets and devices make each cart a tailor-made product.

Standard equipment
